Hi Erik,

I think you still need to share the files with me before I am able to download them. First, you have to check the box next to the folder and then click the share button (near the top of the browser screen). A menu will pop up and you will need to add my email address – daniel.menendez@tceq.texas.gov. Let me know if you have any issues and I'll see if I can help.

I have a copy of the final TSD. I'll let you know if I need any additional information after I've looked at the files.

Thanks,

Daniel

Hi Daniel,

I created a folder SC 3-2016 files and all the files should be uploaded. I assume you have our final TSD which included our review and comments about the SC modeling, if not let me know and I can send to you. Think I have everything uploaded but let me know if you are missing anything, have any questions, etc.

Hi Erik,

You should be able to upload the files to our FTP site at <https://ftps.tceq.texas.gov/index.php>. I think you previously created an account. The directions at <https://ftps.tceq.texas.gov/help/> details the steps you'll need to follow in order to upload the files and share them with me.

Thanks,

Daniel

Hi Daniel,

Yes we have the files and would be glad to share them. Each facility is about 140 MB zipped up so email won't work. Do you have an ftp folder we could upload the files? If not let me know what the best way to get them too you, our science ftp went away so we don't have an easy way to share larger files. Sharepoint or DVD would be two options if you don't have better options.

Hi Erik,

Do you still have a copy of the last modeling Sierra Club conducted for the 3 nonattainment areas? Is so, can I get a copy of the files?

Thanks,

Daniel

Looks like App. W is still a little ways out. Let me know if something comes up where you need something like Adj U*, or other in the interim.
